## PROFESSIONAL SUMMARY

---

I'd like to introduce myself as a Full-stack Software Developer with a passion for designing and developing innovative software solutions. As a highly motivated individual, I'm seeking a challenging role in a dynamic company where I can leverage my technical skills and experience to create exceptional products. As a student and worker, I've gained extensive knowledge and expertise in both frontend and backend development. My career objective is to work with a range of frontend technologies, such as Angular, React, React Native, but to continue to develop and assist on backend demands. With a strong desire to work for a foreign company, I'm excited about the prospect of collaborating with diverse teams and contributing to cutting-edge projects.

## WORK EXPERIENCE

---

### Mid-Software Developer

Jul 2021 - Present

CI&T • Campinas, Brazil

- Create and develop code for new software, ensuring its accuracy through careful testing and debugging.
- Assess information to propose and strategize the implementation of new features or alterations to existing ones, communicate technical specifications to the team and delegate tasks to them assisting if necessary.
- Examine the connections between programs, such as the potential impact of modifying one part of a program on another.
- Maintain and improve CI/CD implementation, mostly pipelines/services setups.
- Analyze production environment incidents and provide possible solutions to mitigate impact.

### Junior Software Developer

Feb 2021 - Jul 2021

CI&T • Campinas, Brazil

- Design, write, read, test, and correct code for new software.
- Evaluate simple interrelationships between programs, such as whether a contemplated change in one part of a program would cause unwanted results in a related part.
- Write, modify, integrate and test software code for Internet and mobile applications.
- Write documentation for new and updated software.
- Provide code review of teammate's code.

### Intern Software Developer

Feb 2020 - Feb 2021

CI&T • Campinas

- Learn best practices of coding, testing and architecture to produce software.
- Participate in different meetings and rituals of Agile.
- Write, test and improve my own code through code review done by other teammates.
- Study technologies from the client's stack on provided study platforms.

## EDUCATION

---

### Computer Science – Bachelor Degree

Feb 2021 - Jul 2024

Centro Universitário Wyden Unimetrocamp • Campinas, Brazil

Programming Fundamentals; Computer Architecture; Operating Systems; Database Management; Software Engineering.

### System's Development – Technical Degree

Feb 2018 - Feb 2021

Colégio Técnico Da Unicamp Campinas • Campinas, Brazil

Object-Oriented Programming and Data structures; Databases; Web Development; Internet of Things (IoT); Mobile Applications.

## CERTIFICATIONS

---

- AWS Certified Practitioner 2022
